Information Systems graduate passionate about data analytics, data science, AI, and web development. Experienced in building data-driven projects, machine learning solutions, and interactive dashboards. Analytical, detail-oriented, and committed to continuous learning and delivering impactful technology solutions.

WORK EXPERIENCE

Data Analyst-Internship Azra Hospital	Mar 2025 - Jul 2025 Bogor, Indonesia
- Collected, cleaned, and analyzed patient registration and demographic data to support decision-making. Conducted data - Designed and maintained a scalable data warehouse, enabling quick access to critical business data for decision-making. - Introduced data lineage and documentation process, streamlining data troubleshooting and saving 25% of time during data analysis.	

EDUCATION

Information Systems Universitas Binaniaga Indonesia	Sep 2022 - Present GPA: 3.79 of 4.0
- Actively pursuing self-learning in Data Analytics, Data Science, Business Intelligence, and Web Development. - Participated in university and external competitions, workshops, and professional development activities.	
Language Major SMAN 1 Leuwiliang	Jul 2017 - May 2020 GPA: 87 of 100
- Developed strong communication, writing, and critical thinking skills through language and cultural studies. - Participated in student activities and school events, developing leadership and organizational skills.	

PROJECTS

Chronic Energy Deficiency (CED) Clustering System Laravel, Python, MySQL	May 2026 - Aug 2026
Developed a web-based KEK analysis system using Laravel, Python, MySQL, and K-Means Clustering. Automated data processing and clustering analysis for pregnant women, reducing manual analysis efforts and enabling faster identification of nutritional risk groups.	
Prediction of MSME Success Using CatBoost Kaggle Notebooks	May 2026 - Jun 2026
Developed a machine learning model using CatBoost to predict the success of Micro, Small, and Medium Enterprises (MSMEs) based on business-related features. Performed data preprocessing, feature engineering, and model evaluation, achieving 97% prediction accuracy and demonstrating the effectiveness of gradient boosting techniques for business outcome prediction.	
Portfolio Website React.js, Tailwind CSS, Firebase	Apr 2026 - Jun 2026
Developed a personal portfolio website using React.js, Tailwind CSS, and Firebase, featuring project showcases and contact integration. Achieved a page load time under 5 seconds and improved accessibility across desktop and mobile platforms.	
K-Means Clustering Dashboard Python, Streamlit, Scikit-Learn	Mar 2024 - May 2024
Built a web-based K-Means Clustering Dashboard that allows users to upload datasets, perform clustering analysis, and evaluate results using four validation metrics. Automated cluster recommendation and visualization processes, transforming a multi-step analytical workflow into a single interactive platform for faster and more efficient data segmentation.	

SKILLS

Technical Skills: Python, SQL, MySQL, Postgres, Laravel, PHP, HTML, CSS, JavaScript, React.js, Git, GitHub
Data Analytics: Pandas, NumPy, Scikit-Learn, Tableau, Data Visualization, Data Mining, Business Intelligence
Machine Learning: Clustering, Classification, Feature Engineering, Model Evaluation, Data Preprocessing
Soft Skills: Problem Solving, Analytical Thinking, Teamwork, Communication, Adaptability, Critical Thinking

CERTIFICATIONS

Data Scientist by Dicoding powered by DBS Foundation	Feb 2026
Introduction to Data Science by Cisco Networking Academy	Feb 2026
Registered Copyright for a computer program by LP3M Universitas Binaniaga Indonesia	Jan 2026
Introduction to Networks by Cisco Networking Academy	Sep 2025
Kelas Belajar JavaScript (Credential ID: EBG2QMR) by Codepolitan	Feb 2024
Alibaba Cloud Certification (Credential ID: ACCDO119700100001467) by Alibaba Cloud	Oct 2023

ORGANIZATIONAL & VOLUNTEER EXPERIENCE

The Section for Devotion to God Almighty SMAN 1 Leuwiliang	Sep 2017 - Sep 2018 Bogor, Indonesia
- Supported the organization of school religious events and activities. - Collaborated with team members to coordinate and execute programs effectively. - Promoted student engagement in activities focused on character building and ethical values.	

AWARDS

Silver Award – National APTIKOM Competition (PEDAS 2025) by APTIKOM (Asosiasi Pendidikan Tinggi Informatika dan Komputer)	Sep 2025
Achieved Silver Award in a national-level data science and informatics competition organized by APTIKOM. Applied analytical, problem-solving, and teamwork skills to develop innovative data-driven solutions.	
Finalist of the Business Model Canvas (BMC) Competition by Aisyyah Surakarta.	Dec 2024
Recognized as a finalist in a national business innovation competition. Collaborated in designing a business model focused on entrepreneurship, innovation, and future workforce challenges.	

LANGUAGES

English (Limited working proficiency) • **Japanese** (Elementary proficiency)
